THE REPORT OF THE SCHOOL NURSE

October through November — 1949

Physical examinations by the physician	38
Objects found	
Teeth	17
Tonsils	8
Orthopedic	14
Posture	2
Other	12
Vision	1
Wax in ears	3
Hearing	1
Enlarged glands (of neck)	1

It will be noted that close to 50% of the children have dental defects — some of this decay of teeth has probably been checked by the Fluoride Treatments received last year but the need for continued dental care is urgent.

During October routine inspections of all children was done and instruction in hygiene given at this time.

The hot lunch program seems to be greatly appreciated, and the teachers are to be congratulated on the success of this work.

I appreciate the patience and help received by me from all concerned.

Respectfully submitted
ANN WALKER, R. N.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and the Citizens of Freedom:

During the year 1948-1949 the teachers in the Freedom School were Mrs. Ethel Ramsdell, grade 5 to 8, and Mrs. Olive Eldridge, grade 1 to 4. Freedom is fortunate to have such competent teachers whose devotion to duty and to the welfare of the pupils deserves high commendation. In addition to their teaching duties they prepare and serve the hot lunch which is a considerable task to add to a full teaching day. In most communities where hot lunches are served some organization undertakes the preparation of the lunch as a project, or the school district pays a cook for the preparation. Possibly some organization may become interested to undertake this work in order that the teachers may devote their full time to teaching, and at the same time the value of the hot lunch may be available to the children.

Fourteen pupils were registered at Ossipee High School, two at Porter High School and one at Brewster Academy. Four were graduated from Ossipee High School. During the current year six pupils are enrolled at Ossipee High School, three at Porter High School, one at Brewster Academy, and one at Dover High School. Of the group in high school three will be graduated in June. Enrolled in the eighth grade of the Freedom School are eight members. This will probably mean an increase in the number of tuition pupils. There will also be a considerable increase in the cost of tuition per pupil. This fact will account in large part for the increase in the budget over that of the current year.

During the year 1948-1949 Freedom's tax rate for school purposes was \$10.77 per thousand equalized

valuation. Through the state as a whole tax rates for school purposes ranged as high as \$29.00 per thousand, with an average of \$12.10 per thousand equalized valuation. An increase in tuition rates and the loss of \$670.38 state aid will increase the rate somewhat for the current year.

The dental clinic provided by the district and operated under the supervision of Miss Eva Heney, R. N., School Nurse, has been a very valuable service contributing to the health of the pupils. It is a service that should be continued.

In my last report I referred to the lack of a playground for the Freedom School. This is a very serious deficiency. I suggest that some organization undertake a study of the problem for the purpose of providing a suitable playground in order that Freedom boys and girls may have the privilege of highly desirable activities that should contribute a very important feature of their training.

The continued cooperation of the School Board, teachers, and pupils is warmly appreciated.

Respectfully submitted,
EVERETT H. BRASIER
